

1. PROGRAM 1 INSTRUCTIONS, CS101, PROF. LOFTIN

Write a Java program which prints out the message

```
"The only thing to fear is fear itself,"  
is one of Franklin Roosevelt's best-known quotations.
```

The first line of your output should be properly indented, and the line break after the second quotation mark. Be sure the quotation marks are properly included in your output.

Your program file should be entitled `Program1.java` and should be turned in through the Blackboard system. Click on the Tools button on your left, and click on the Digital Dropbox. Your program must compile and run on the `pegasus` server.
