

CS 101: Quiz #4, February 18, 2009, SOLUTIONS

1. Write a for loop to print the odd numbers from 1 to 99 (inclusive).

Solution:

```
for (int i=1; i<100; i+=2)
    System.out.println(i);
```

2. What is the output of the following Java code fragment?

```
int num = 0, max = 20;
while (num < max){
    System.out.println (num);
    num += 4;
}
```

Put your answer in the box below.

Output: 0 4 8 12 16
