INFORMATION AND POLICY
Advanced Calculus I – Fall 2004

Instructor: Dr. Li Guo   Office: 308 Smith Hall
Phone: 973-353-5156 ext. 30   E-mail: liguo@newark.rutgers.edu
Wed address: http://newark.rutgers.edu/~liguo
Department web address: http://nwkmath.rutgers.edu/
Office Hours: TTh 1:30-2:30pm in my office or by appointment.

Grading Policy: There will be one final exam (200 points), two midterm exams (100 points each) and 5 quizzes (20 points each). Your highest 4 grades from the 5 quizzes will count for the total grade. The formula of the total points is
20 (attendance) + 80 (4 quizzes) + 200 (2 midterms) + 200 (final) = 500 points (total)
The course grade will be given on a curve based on the total points.

Quizzes: Five quizzes will be given during the term. There will be no make-up quizzes, but the lowest quiz grade will be dropped.

Exams: The exams (except the final) will be given in this classroom.
    First Exam:
    Second Exam:
    Final Exam:
Make-up exams will be allowed only in extreme situations (death in the family, serious illness) with written documents, and I must be notified before the scheduled exam dates. Thus the fact that you have bought a ticket home before the exam is not an excuse to take the exam earlier or later. A time conflict with another exam is not the reason for a make-up exam either. A make-up exam might cover different materials and might be more difficult than the regular exam. There are no make-up quizzes.

Homework: The homework will be assigned in each lecture. Even though the homework problems will not be collected, they should be studied carefully. Doing homework is the most important component of the course work. The exams and quizzes will be closely related to the homework.

Classes: The students are expected to attend the lectures on time and remain until the end of the lectures. Attendance check will be given from time to time, and absence will reduce your course grade. If you have any problem about this course, please discuss it with me as early as possible. Don’t wait until the end of the semester when getting an unwanted grade and paying the tuition is usually the only solution.

Course Outline(tentative):

<table>
<thead>
<tr>
<th>Chapters</th>
<th>Topics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter 1</td>
<td>Properties of real numbers</td>
</tr>
<tr>
<td>Chapter 2</td>
<td>Sequences</td>
</tr>
<tr>
<td>Chapter 4</td>
<td>Sets of real numbers</td>
</tr>
<tr>
<td>Chapter 5</td>
<td>Continuous functions</td>
</tr>
<tr>
<td>Chapter 7</td>
<td>Differentiation</td>
</tr>
</tbody>
</table>

Dates of interest:
- Last day to drop a course: Sept 8, Wednesday;
- Last day to drop a course and receive a W grade: Nov 3, Wednesday;
- Last day of classes: Dec 13, Monday.
